

Position	Number
Reviews need assigning	14
Active Reviews	17
Reviews awaiting QA	2
Reviews completed	14

14 reviews are currently awaiting to be assigned to a reviewer but there are no available reviewers at present 14 reviews have been completed since LeDeR started. A copy of the redacted reports can be shared if required.

Good Practice Identified (2016-19)

- Flexible support provided to enable attendance at social activities
- Flexible staffing was provided to support 24/7 when required
- Carers were welcomed and supported to stay in hospital with patient
- Reasonable adjustments were made to support patient

Areas of learning (2016-19)

- Support for deaf patients and better access to BSL interpreters
- Coroner not aware of LeDeR process
- Training for staff regarding risk of constipation and importance of medication review
- Family was not aware of type of care provided in homes for people with a learning disability and the options available to support them
- Support for bereaved families, specifically when they have been acting in carer capacity or if the death was sudden/unexpected
- Sharing relevant support information with family following a death
- DNACPR was not followed
- Expectations of carers to continue to care and provide medications when inpatient
- Raise awareness of the LeDeR process to improve family/carers awareness and involvement
- wider publication of John's campaign
- Staff supported and trained to recognise changes to an individuals condition and escalate accordingly
- Annual Health checks
- Better compliance with reasonable adjustments requirements
- Promote screening and immunisations
- Timely access to SALT assessments following referral

There are currently only 16 active reviewers within Leeds. Training can now be accessed online and all organisations are asked to promote the role and actively encourage additional staff to become reviewers. The training can be accessed here: <http://www.bristol.ac.uk/sps/leder/>
