Supporting searches

These searches support in the coding of LD and help to identify those maybe coded incorrectly and not on LD registers.

Any patient that is identified as having a LD should be coded with:

On learning disability register (**416075005**) this code should be input using the date of the initial diagnosis.

(Please ensure this is not added as a new diagnosis with today's date)

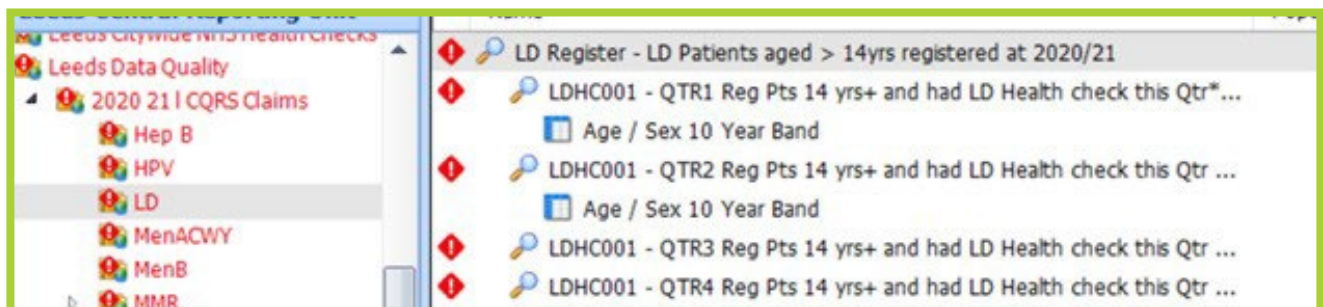

Correct coding

Once all patients have been coded as above.

Your **QOF** and **CQRS LD registers** should match.

CQRS register can be found below:

Re coding errors

If you have already completed the 1st step of coding patients with the On Learning disabilities register and believe you have done this incorrectly.

Please run the below report to check if you have incorrectly coded any patient with a diagnosis of LD, when they already had a previous diagnosis code entered.

If this code was entered as part of the plan to ensure your LD patient was on all LD registers as above.

Please mark in error the code entered in 2019/20 unless the patient was correctly diagnosed for the first time in 2019/20.

If this was done in error, please add code On Learning Disabilities Register 416075005 on the same date as the initial diagnosis and remove the code entered in 2019/20.

Learning disabilities HC can be found on the blue dot (homepage) template under the nurses and GP tab.

Once in the template you can also choose the complete later option – please note this does not mean you have achieved the review it means you have done parts and intend to return, as the patient will still be outstanding an annual review.

The screenshot displays the NHS Leeds Clinical Commissioning Group Learning Disabilities template interface. The main section is titled 'Learning Disabilities' and shows a message: 'LD - LD Overview view cannot be shown when previewing a template'. Below this is a 'Review' section with a grid of tabs: Core Data, Routine Care, History, Meds, Social/Paeds, Screening, Sex / Drugs, Health Exam, Rels, Tests, Problems, Action Plan, Profs, Overview, and Summary. To the right is a 'Guidance' section with links to various resources, including 'Covid-19 Support', 'COVID - Annual HC guidelines', 'Consent for Summary Care Record', 'Easy-Read Diabetic Eye', 'Easy-Read Breast Screening', 'Easy-Read Womens Health', 'Easy-Read Bowels', and 'Easy-Read End Of Life'. Below the guidance is an 'Invites' section with links to 'GP AHC letter invite (Covid-19)', 'Get Checked Out Checklist (Covid-19)', 'LD- Invite letter template', and 'Learning Disabilities - Get Checked Out Checklist'. At the bottom is a 'Learning Disabilities Review' section with a dropdown menu showing options: 'NHS Digital LD health check sch', 'RCGP Health Check Toolkit', 'Learning disabilities health action plan completed (XaJsd)', 'Learning disabilities annual health assessment (XaL3Q)', 'Learning disabilities health action plan declined (XaJW9)', and 'Complete Later'.
