

Recognising Early Soft Signs, Take Observations, Respond and Escalate (RESTORE2 mini)

The training scheme aims to introduce the use of pulse oximetry and the RESTORE2 mini tool into care settings for people with learning disability in Leeds, to improve outcomes for this population by ensuring the right interventions are made at the right time.

The Learning Disability Health Facilitation Team is delivering a training session via Microsoft teams on the dates below.

To book places please contact Natasha Bradburn on getcheckedout.lypft@nhs.net with the names and email addresses, along with the date you would like to book. You will then receive the training invite and course resources. If pulse oximeters are required these will be posted out after the training.

Tuesday 2nd July 2024

14.00 – 15.00

Thursday 8th August 2024

11.00 – 12.00

Tuesday 3rd September 2024

13.30 – 14.30
