

## Breast Cancer Screening-Your GP Can Help

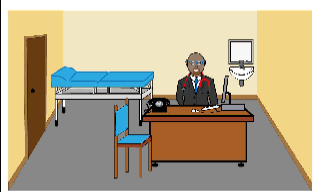

### breasts

Breast Cancer Screening is a Xray test to look for early signs of cancer.

Breast Cancer can be treated if it is found early.

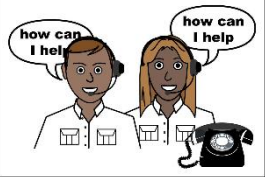

### GP practice

People with breasts are invited to have a screening test every 3 years from the age of 50 until 71.

Your GP Surgery wants to help you have your Breast Cancer Screening.

### health advisor

Do you need help to access Breast Cancer Screening?  
Would you like more information?

Please ask us for help.

You or your carer can phone us or come to surgery with this letter.

### The Equality Act (2010) - Reasonable Adjustments - Alert

A reasonable adjustment is a small change your Doctor can make to make your health appointment or Annual Health Check easier for you. You can get help to make these adjustments. You can get help to make these adjustments. You can get help to make these adjustments. You can get help to make these adjustments.

Reasonable adjustment	How you can help me	Yes	No	Comments
	I need extra road crossings.			
	I need information in large print or Braille.			
	I need information in a different language or sign language?			
	I am a visually impaired and need a large print or Braille version of this information.			
	I find it difficult to wait for my appointments, as I may make the wrong time to wait outside with you and need to see you.			

We can help you fill out a Reasonable Adjustment Alert.

This is how you can tell us what you need.

This will help us understand how to help you.
