

Hello my name is Kit McGowan

I am a learning disability nurse (RNLD)

I am currently working on setting up a new pathway to make it easier for people with a learning disability to access cervical cancer screenings.

I work in the Health Facilitation Team within Leeds and York Partnership NHS Foundation Trust (LYPFT).

The Health Facilitation Team are a team of health professionals who work strategically with other professionals. We also create easy read and accessible information for people with a learning disability.

We offer support to practices about how to care for people with a learning disability.

We have a website with all our accessible resources on www.learningdisabilityservice-leeds.nhs.uk/get-checked-out/

We offer training sessions, consultations, advice and support regarding learning disabilities and annual health checks.

We can review and validate learning disability registers to ensure they are accurate.
