

Hello, my name is Julie Royle-Evatt

I am the manager of the Health Facilitation Team and the Involvement team within Leeds and York Partnership NHS Foundation Trust (LYPFT).

The Health Facilitation Team are a team of health and other professionals who work strategically with other people. Our aim is to work with those who support and care for people with a learning disability.

We also help to make sure that there is a positive health pathway, easy read, accessible information resources around health and wellbeing.

The Involvement Team are a group of staff who have different skills and lived experience. Some staff are co-workers who use their lived experience to support the trust to make services available to all. Some staff are skilled in inclusion and co working with people with a lived experience.

We offer support, training, consultation and advice to any GP practice, family member, carer or people with a Learning Disability in the city of Leeds.

We have a website with all our accessible resources at “**Get Checked Out Leeds**”
