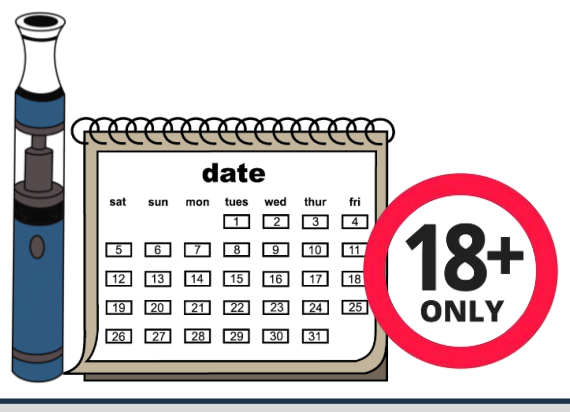
Leeds and York Partnership
NHS Foundation Trust

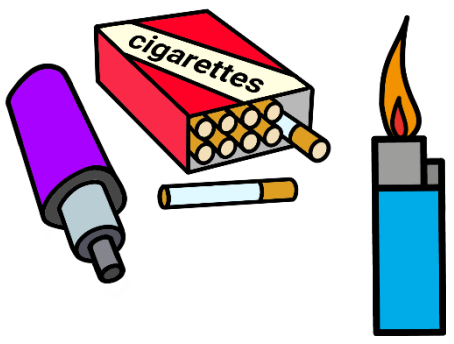
Smokefree site

Leeds and York Partnership NHS Foundation Trust is a **Smokefree site – smoking is not allowed** anywhere within the grounds.

Whilst in hospital staff will not be able to escort you off the ward to smoke. Escorted leave can be used for therapeutic activities such as walking and going to the gym.



If you do smoke and are over 18 you will have access to trust vapes and nicotine replacement therapy if required. You will be referred to the smokefree team for tobacco dependency support.



Staff are not able store any smoking materials such as cigarettes, lighters and personal vapes. These will be given to family/friends to take home where possible.

SMOKEFREE

For any further information please ask staff to refer you to the **Healthy Living Service/smokefree team** for tobacco dependency support.
