Health Facilitation and Involvement Team

HF-0002

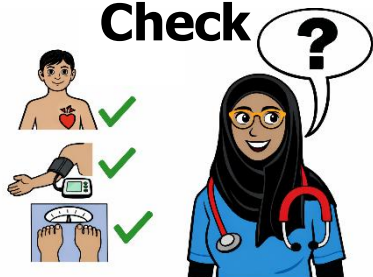

Who we are

Our team is made up of different people.

We work across the city of Leeds with other professionals to make sure people with a Learning Disability get fair access to health and social care services.

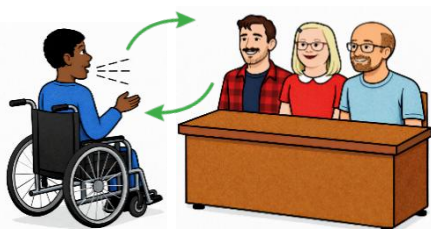

Annual Health Check

The team works with all different professionals and people with a Learning Disability to make sure they get an annual health check.

We hope that health inequalities are reduced because people are having a good annual health check.

Listening to peoples voices

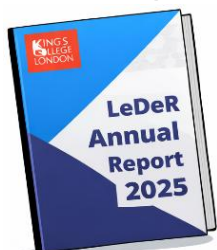

Three people with lived experience work in our team to help us get health care right for people with a Learning Disability.

We sometimes offer paid and voluntary chances to work with us so that organisations and teams can gain feedback about their services.

This helps health care to get better for people with a learning disability.

Learning into Action

The team are part of the Learning from the Lives and Deaths of people with a Learning Disability and or Autism.

As a team, we look at the reasons why people died. The team work to try to make sure it does not happen again in the future.

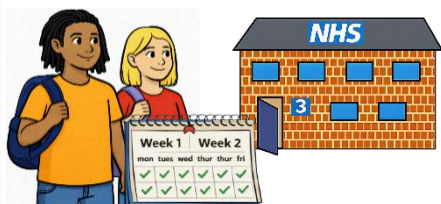

Image Bank

We have a free image resource bank so that other people can make accessible information when working with a person with a learning disability.

This is not only available to people in Leeds. Lots of other teams use our images in their work.

Student Placements

We offer 2 week placements to students who are interested in a career in health care.

It is good for all different types of health care students to experience the work of the Learning Disability service.

Sharing knowledge

We make teaching packages to help improve the support for people with a learning disability.

This includes

- Health Professionals and support staff
- Families
- Paid and unpaid carers
- Social care staff teams
- Legal responsibilities

Easy Read

We make easy read information.

This helps people to talk to a person with a Learning Disability so that they understand their health problems.

Accessible Health Info

We offer free accessible information to support a person with a learning disability, their family and their support teams to understand health.

These resources are available for anyone to use.

Leeds Strategy

Being Me

We work together with other teams and organisations to make sure that we are working in the best way for people with a Learning Disability in Leeds.

We are part of the Leeds Being Me strategy plan.
